Trustee Vacancies

Derbyshire Mind is looking for new Board members to join them and help influence the future shape and direction of our organisation.

We are particularly keen to recruit individuals who have relevant work experience in areas such as marketing, fundraising, human resources, business development, law and safeguarding, although this is by no means essential.

You should have a keen interest in mental health, enthusiasm and commitment along with skills and experience gained through family life, volunteering or professional roles. You must be eligible to become a company director. This role is voluntary with paid expenses and involves attending up to five Board meetings per year as well as involvement in chosen work streams and other events.

For an application pack or further details please contact: Sinead Dalton
